

MEETING OF THE ENERGY CONSERVATION CELL (ECC)

DATE: 12-08-2024

Agenda: Formation of Energy Conservation Cell (ECC)

The meeting to initiate the formation of the Energy Conservation Cell (ECC) at Kaliabor College of Education commenced at 10:00 AM. The purpose of the cell is to promote awareness and practice related to energy conservation on campus and foster a culture of sustainable energy usage.

The Principal, Dr. T. Kumbang welcomed all the participants and highlighted the importance of energy conservation in modern society. In the opening remarks, the principal emphasized the role that educational institutions play in shaping environmentally responsible citizen. The Principal further outlined the need for an Energy Conservation Cell that will serve as a platform to spread awareness, initiate campaigns and implement energy saving strategies within the college.

Objectives of the Energy Conservation Cell:-

- ❖ Raising awareness about energy conservation among students, faculty and staff.
- ❖ Encouraging energy-saving habits in daily activities on campus.
- ❖ Conducting energy audits to identify areas where energy can be saved.
- ❖ Promoting the use of renewable energy sources.
- ❖ Organized workshop, seminars and campaigns on energy efficiency.
- ❖ Collaboration with external agencies and organization for energy conservation initiatives.
